### **National Audit Department Signs MoU With MACC On Exchange Programme**

KUALA LUMPUR, May 29 (Bernama) -- The National Audit Department and Malaysian Anti-Corruption Commission (MACC) will undertake an exchange programme involving officers from the two agencies.

This follows the signing of a memorandum of understanding between the National Audit Department and MACC on the exchange programme in Putrajaya Tuesday.

Auditor-General Tan Sri Ambrin Buang said the attachment officers programme was aimed at boosting the audit officers' capability and capacity in the techniques of detecting misconduct, corruption, misappropriation, contravention of systems and procedures, and irregularities in carrying out daily tasks.

The MACC officers, on the other hand, will have the opportunity to carry out activities related to auditing and to increase their knowledge in this field.

"There is a need to enhance the officers' capability and capacity, considering the position of these two agencies, which are important institutions to the nation.

"The Audit Department has drawn up a serious programme so that the presence of the MACC officers at the department is meaningful and useful, and at the end of the programme, how much knowledge they have gained can be gauged," said Ambrin in a statement today.

Ambrin signed the MoU on behalf of the National Audit Department while the MACC was represented by its chief commissioner, Datuk Seri Abu Kassim Mohamed.

The attachment programme involves five MACC officers to be stationed at the Audit Department for six months while five officers from the department will be assigned to the MACC for the same duration.
